The Way the World Learns to Dive<sup>®</sup>

## ¿WHAT IS THE PADI ADVANCED OPEN WATER DIVER COURSE?

PADI Advanced Open Water is the “following” course after the PADI Open Water Course.

A very fun course, focused in the diver to get “in-water” experience, differently than the Open Water Course, that is very focused in the theory.

After taking this training, you’ll be capable and allowed to dive down to 30 mts. (100 ft.).

## PRE-REQUISITES- ¿WHAT DO I NEED TO BEGIN THE COURSE?

The only pre-requisite for taking this course is to be a certified PADI Open Water Diver, or from any other agency.

## ABOUT THE COURSE – WHAT DOES IT INCLUDE?

Like any other PADI course, it includes a complete manual and a training Cue Card.

With a qualified PADI Instructor, you'll go over all the "Knowledge Reviews" from each section of the manual, and then go to Open Water and do 5 "Adventure Dives", focusing each of these dives on a specific topic. All dives include the whole gear rental.

Two of these Adventures are mandatory: Deep Dive and Underwater Navigation (with compass).

With your instructor, you'll get to choose the other 3 Adventure dives that you will practice from the following list:

- Night Dive
- Wreck Diving
- Fish ID
- Peak Performance Buoyancy
- Enriched Air Dive
- Search and Recovery
- Dry Suit Diving

**\* ALL OF THESE DIVES COUNT AS CREDIT FOR EVENTUAL SPECIALTY COURSES.**

## HOW TO MAKE THE RESERVATION

For being able to start the course, we ask for a 1/3 of the total deposit.

The cost of the course is \$240.000 (380 USD).

**Payment method can be through Paypal, credit/debit card, or cash.**

The Course can be done in 2 days, if doing 3 dives one day and 2 on the second, but there is no problema in doing it in more days if necessary.

With almost 11 years of experience in the área, we have taught more than 250 Advanced Courses, and certified a total of 5000 divers, from Discover Scuba Diving to Instructor level.

We have a very unique diving infraestructure, surely the most complete in the country, which makes very easy and comfortable learning any level of training.

At our dive center you can find: Dive Shop, Accomodations, Dive Pool, Advanced Filling station for air, nitrox and trimix mixtures, changing romos with hot wáter and a nice cafeteria.
